Some Hints For You:

- ❖ To create your dandelion paintbrush, pick a dandelion on a strong stalk, and use the flower head as your brush
- ❖ Leaf printing works best with big leaves with prominent leaf veins or distinctive shape leaves like the oak
- ❖ You can paint big stones and then add the name of a vegetable or herb, a perfect plant label for the garden!
- ❖ To press flowers, place the flowers between greaseproof paper, and place two heavy books on top for at least 7 days, until the flowers are dry and papery
